DISCOVER TRUE CHOCOLATE FLAVOR

Our award-winning, single origin chocolate has been recognized as among the best in the world. We handcraft our bars in small batches using only the highest quality, directly sourced beans. Our careful attention to every detail allows us to highlight the incredible, true flavors of the cacao.

FRESHLY PRESSED COCOA BUTTER

Most chocolate bars contain deodorized cocoa butter made using an industrial process. We're one of the only chocolate makers who uses our own cocoa butter, which is freshly pressed from the same premium beans we use to make our chocolate. This ensures our bars are intensely flavorful, exceptionally smooth and truly single origin.

CAREFULLY HANDCRAFTED IN MASSACHUSETTS

Each step of our chocolate making process takes place at our 225-year-old farm in Sudbury, Massachusetts. We roast each type of bean using a unique profile designed to draw out the best flavors, then stone grind and conche each small batch for several days. Every bar is carefully hand wrapped in a resealable pouch to preserve the unique flavors.
